

Political Activity Questionnaire

It is appreciated that some applicants may have undertaken political activity in earlier periods and those activities may have given you relevant skills, including experience gained from committee work, collective decision-making, resolving conflict and public speaking. However, those same activities may also affect the perception of your political impartiality if you were to be appointed to a post like this one.

Your responses to this questionnaire will be considered as part of the application process for this post, and if you are called for interview, the Panel may explore with you any potential for conflict of interests.

Please indicate which of the following activities you have undertaken during the past **five years** by ticking the appropriate box and by providing details of your involvement, including the name of the party or body for which you have been active. If you have been, are currently an Independent or have sought or obtained office as a representative of a particular interest group, you should state this.
